MEMORANDUM FOR: A.I.S., Inc.
Northeast Fisheries Observer Program Observers

FROM: David Potter
Branch Chief, FSB

SUBJECT: Optional Species Weight Worksheets

Enclosed are several copies of a new version of the Optional Species Weight Worksheets. As the title indicates, these worksheets are optional for your use to assist with the iPAQ Special Access Program reporting. Electronic iPAQ data are still required to be uploaded with Obscon as usual. These worksheets should work better along with the iPAQ if you like to use the worksheets for ease of entry into the iPAQ.

The enclosed Optional Species Weight Worksheets include the following:

- ▶ Haddock Hook SAP,
- ▶ Access Area Scallop,
- ▶ U.S. / Canada Management Area, and
- ▶ Regular B-Day Program

Please discard any old copies of the Species Weight Tally Sheets that you may still have around. These new versions will also be posted on the website at:

<http://www.nefsc.noaa.gov/femad/fsb/>

under Manuals/References, Species Weight Worksheets.

If you have any additional suggestions on formatting, etc. please contact Amy Van Atten at 508-495-2266 or Amy.Van.Atten@noaa.gov.
